Please read the page here <http://www.smileysdover.com/Keg%20Information.htm> for ordering information.

I have tried to update this as best as I could. Many times the company will change the sizes of kegs available without notice. When you order please allow as much time as possible for any of the speciality brews. If it is unavailable we will have time to obtain a brew that you want. There is nothing worse than you showing up for a keg and it not being there.

You will also see some of the kegs I have placed "call" in the area. That is because I could not find them on any of the pricing sheets I have. We won't go into the companies and how they handle kegs. As I said above, please give us as much time as possible to order your keg. It is best to e-mail me with any questions or even your order at lyn@smileysdover.com. I have great employees however when it comes to kegs that is probably the most difficult part of their job. It has nothing to do with them, it has all to do with the companies.
